

### REMARKS

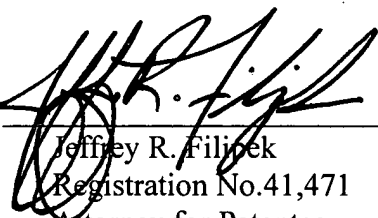

By this preliminary amendment, claims 1-5 have been canceled and claims 6-11 added. Thus, claims 6-11 are active. Support for the new claim recitations can be found at least at: Fig. 84; Fig. 160(a); Fig. 160(b); Fig. 165; column 49 line 57 to column 50 line 10; column 29, lines 25-48; and column 19, lines 57-60 of the present application. The Examiner is invited to contact the undersigned by telephone if further supporting passages are required.

The present Preliminary Amendment seeks to amend the specification by replacing the specification and abstract with the enclosed substitute specification and abstract. Since this is a reissue application, the substitute specification includes bracketing and underlining to show the changes relative to the patent specification.

Proposed drawing amendments are filed herewith under a separate cover letter, indicating the proposed changes in red as required for reissue applications. It is requested that the Examiner approve the proposed drawing amendments. Also, new formal drawings, labeled "(Amended)" as required for reissue applications, are filed herewith under a separate cover letter incorporating therein the changes made in the proposed drawing amendments.

Respectfully submitted,

Mitsuaki OSHIMA
